

快速打开 PDF 方法

- **Symptom:**When attempting to open a PDF the browser becomes a blank white screen. At this point the browser hangs and the PDF does not open. This is due to the plug-in that is trying to open the PDF within the browser
 - Steps
 - Close your browsers
 - Open Adobe Reader
 - Go to the 'Edit' menu and select 'Preferences'
 - In the left column select 'Internet'
 - Uncheck 'Display PDF in browser'
 - Click OK and try again.
